

Company Overview

NovaTech is a B2B SaaS company headquartered in Amsterdam, Netherlands, specializing in AI-powered supply chain optimization software. Founded in 2017, NovaTech serves mid-market and enterprise clients in manufacturing, logistics, and retail. Annual recurring revenue (ARR) reached €28M in 2025, with a net revenue retention rate of 118%. The company recently launched NovaTech Predict, a real-time demand forecasting module, and needs to drive adoption among existing customers while acquiring net-new logos.

Campaign Objectives

- Generate 200 marketing-qualified leads (MQLs) per month for NovaTech Predict by end of Q4 2025.
- Achieve a blended cost per MQL below €120 across all paid channels.
- Drive 500 free trial sign-ups for NovaTech Predict during the Q4 launch window (Oct-Dec 2025).
- Maintain blended ROAS above 3.0x on bottom-funnel campaigns (Search + Retargeting).
- Increase NovaTech brand awareness in the DACH region by 20%, measured by branded search volume lift.

Target Audiences

| Segment              | Job Titles                               | Company Size         | Channels                     |
|----------------------|------------------------------------------|----------------------|------------------------------|
| Supply Chain Leaders | VP/Dir. Supply Chain, Head of Operations | 500-10,000 employees | LinkedIn, Google Search      |
| IT Decision Makers   | CTO, VP Engineering, IT Director         | 500-10,000 employees | LinkedIn, Display            |
| C-Suite / Executives | CEO, COO, CFO                            | 1,000+ employees     | LinkedIn InMail, ABM Display |
| Existing Customers   | Current NovaTech users (upsell audience) | All sizes            | Email, Retargeting, In-App   |

Budget & Allocation

Total Q4 2025 budget: €187,500 (€62,500/month). Allocation by channel:

| Channel | Monthly | % Total | Goal |
|---------|---------|---------|------|
|---------|---------|---------|------|

|                                 |         |     |                  |
|---------------------------------|---------|-----|------------------|
| Google Search (Brand + Generic) | €15,625 | 25% | MQLs + Trials    |
| LinkedIn Ads                    | €14,375 | 23% | MQLs             |
| Google Shopping / PMax          | €12,500 | 20% | Revenue          |
| Display (Programmatic)          | €7,500  | 12% | Awareness        |
| Retargeting (Social + Display)  | €6,875  | 11% | Conversions      |
| YouTube Pre-Roll                | €3,750  | 6%  | Awareness        |
| ABM / Account-Based             | €1,875  | 3%  | Enterprise Leads |

## KPI Targets

| KPI                             | Baseline (Q3 2025) | Q4 2025 Target |
|---------------------------------|--------------------|----------------|
| Monthly MQLs                    | 120                | 200            |
| Cost per MQL                    | €145               | <€120          |
| Free Trial Sign-Ups (quarterly) | 280                | 500            |
| Blended ROAS (bottom-funnel)    | 2.6x               | >3.0x          |
| Branded Search Volume Lift      | Baseline           | +20%           |
| Demo Requests / Month           | 45                 | 75             |

## Creative Direction

NovaTech's brand voice is authoritative yet approachable — 'the trusted expert who simplifies complexity.' All ad creative should emphasize three themes: (1) measurable ROI (e.g., 'Reduce stockouts by 35%'), (2) ease of integration, and (3) social proof via customer logos and case study snippets. Video ads should be 30 seconds max, featuring real customer testimonials. Static ads should use NovaTech's navy + teal palette with clean data visualizations.

## Competitive Landscape

Key competitors in the paid search landscape include Kinaxis, o9 Solutions, and Blue Yonder. NovaTech differentiates through faster implementation (avg. 6 weeks vs. 4-6 months) and a mid-market price point. Competitor conquest campaigns should target branded search terms for these three competitors, with comparison landing pages highlighting NovaTech's implementation speed and total cost of ownership advantage.

## Reporting Cadence

Weekly performance report delivered every Monday by 09:00 CET. Monthly strategic review with the CMO and Head of Demand Gen on the first Wednesday of each month. Quarterly business review to be scheduled for the first week of January 2026.
